# Sister Sage's Journey

## As Above, So Below

### Upcoming planetary news!

Friends, this Mercury retrograde begins its direct motion on May 3rd. Issues with communication, transportation and electronics will begin to clear up. Those re-do's and repairs are thankfully reshaping us for anew.

Venus has already gone direct as of April 15th, 2017.

So, what is really big in the planetary changes is the new Dragon's Head in Leo and Dragon's Tail in Aquarius, which commences on April 28th, 2017. When you receive this we are already in it.

My question to all of you, are you connecting the dots? Have you read the keywords in each of these zodiac signs and see how they are already appearing in the world?

For those who attended the AstroPsychology party at the beginning of March, I shared a wonderful tip on what I use on a daily basis. I purchase Llewelyns Astrological Calendar. It's my little ritual to buy one each year. It's about \$14.99 and worth it.

Why, because it has the dates the planets go retrograde, eclipses and daily aspects of the planets and moon. This helps you plan your business, signing contracts and travels. It's very helpful and a beautiful calendar, too.

Reminder that the general rule that between the New Moon and Full Moon, the light is green to move and sign contracts. Make sure you are looking at all retrogrades and other pertinent information in your personal chart or consult an astrologer.

New Moon to Full Moon April 26th, 2017 to May 10th, 2017. Taurus/Scorpio respectively.

Please visit <http://www.karmiclax.com/publishing/> if you'd like to order my book. Paperback price is \$12.50 and Kindle ebook price is \$3.99.

Until next time, Safe Astrological Journeys
